

BRYAN UPROOTS THE BASIC LAW

Recklessly Wipes Out Federal Constitution.

HIS REMEDY FOR TRUSTS A SWEEPING ONE.

He Tells His Friends That Protective Tariff is to Blame For a Very Small Fraction of the Evil—Some of His Conclusions Startle the Popocrats Who Thought They Were on the Loaded Wagon—A Review of Yesterday's Session.

Chicago, Sept. 16.—[Special]—Today was the great day of the trust conference. To a densely packed house, Bryan spoke on "Monopolies." He said in part:

Some have suggested that we put everything on the free list that the trusts make and thus destroy the trusts. I do not agree with the statement as it is made so broadly. I believe that the high tariff has been the means of extortion and that it has aided trusts to collect more money than they could otherwise. But I do not believe that you could destroy all trusts by putting all trust made articles on the free list. Why? Because if articles can be produced in this country as cheaply as abroad then the trusts could exist without the benefit of the tariff at all, though it would not extort so much as it can with the tariff. While some relief may come from modifications of the tariff, we cannot destroy monopoly until we lay the axe at the root of the tree and make monopoly impossible by law.

Having confounded his followers by his admission that the protective tariff was not the root of all evil the Nebraska colonel proceeded to deal contemporaneously with the constitution of the United States. He repealed commerce, the substance of his argument being: "The remedy must go further than tariff revision. It must be complete enough to prevent the organization of monopoly. I believe that we ought to have remedies both state and national. They should be concurrent remedies. Each state has, or should have, the right to prevent any foreign corporation from doing business in the state. In other words the people of any state should have the right to create what corporations they want, but should also be permitted to protect themselves from outside corporations. There must be a federal remedy also. I believe that congress has, or should have, the power to place such restriction and limitation, even to the point of prohibition upon any corporations organized in one state that wants to do business outside that state."

Chicago, Sept. 16.—W. Bourke Cockran spoke for two hours at the trust conference Friday night on the general question of industrial combination, and so skillfully were his remarks adapted to his hearers that every outburst provoked by him was one of enthusiastic applause. On the same platform with Cockran sat William Jennings Bryan of Nebraska, and in the midst of his speech the New York man paid such a tribute to his reputed opponent in the conference that the audience for several minutes gave itself up to cheering.

At the conclusion of Cockran's address, Bryan was called for and responded briefly. He said that he had had a meeting with Cockran and the managers of the conference upon his arrival in Chicago, and that it had been decided in order that the appearance of a joint debate might be avoided that he should not speak until today.

Cockran argued that a statute requiring complete publicity as to the affairs of the great corporations would be sufficient to abolish their evils. He pronounced against all forms of governmental favor to individuals or combinations and demanded free way for the principle of competition. He held that strikes were a grave menace to the country and that they might be prevented by permitting action to lie against every corporation employing labor if a strike took place among its men and it refused to treat with them or any one whom they chose to represent them looking to a settlement of the trouble.

No use of the word "trust" occurred in Cockran's speech, except where he paused to say that the term once had a perfectly respectable significance, but of late had fallen into disrepute "apparently because of its association with millionaires." He said he refused to be alarmed by the word "socialism" or any other expression or image that might be conjured. He declared that every serious discussion must be attended by "some vague, sonorous and meaningless phrases," and that a "cloud of passionate declamation" directed against a situation was likely "to obscure its outlines and often magnify its dimensions."

In his reference to corporations that enjoy governmental favor in any form, the speaker said that when he wanted to denounce them he "envied Texas her breezy rhetoric." He declared that the

story of the management of corporations afforded "the blackest page in all our history," and that public wrath because of the crimes of dishonest managers was visited upon the stockholders in corporations and upon corporations themselves. Worst of all, he said, the men who committed the swindles and robberies in this connection "held their heads high in the world of respectable finance."

It was admitted by Cockran that some men might be thrown out of employment or transferred to other employments by industrial combination, but he said that the march of progress could not be suspended on their account. We would better pension them, he contended, than not move on. "And," he added, "until the pension office was opened I hardly think many of such men would materialize."

The complimentary reference to Bryan came while the speaker was illustrating the difference between free and restricted competition. He said that to the convention in Chicago three years ago a young man sprang into leadership in his party because of the operation of the principle of free competition. He declared that if the managers had their way—that is, if there had been restricted competition—that young man could not have got on the platform. "As it was," he averred, "the convention nominated a man best equipped to represent it in every fiber of its thought and feeling."

At the conclusion of Cockran's address there was a wild scene of enthusiasm, lasting until the orator had repeatedly bowed to the people.

Single-taxers, socialists, laboring men, avowed anti-trust organizations and conservatives on the trust question had a voice in the morning and afternoon sessions Friday. There were no interruptions of speakers that amounted to anything, and there was what a delegate called "a remarkably catholic distribution of applause." However, it was noticeable that every demand for rigid trust regulation and public ownership of public utilities was indorsed with peculiar vigor and spontaneity.

At the morning session Friday Louis F. Post of the Single-Tax league delivered an address. Thomas J. Morgan spoke on "The Trust from the Socialist's Point of View." John W. Hayes, secretary of the Knights of Labor; Henry White, general secretary of the United Garment Workers of America; Samuel Gompers, president of the American Federation of Labor; and M. M. Garland, ex-president of the Amalgamated Association of Iron and Steel Workers, delivered addresses, giving labor's side of the trust problem.

In the afternoon David Ross of the Illinois bureau of labor statistics and M. L. Lockwood of the Anti-Trust league delivered addresses. Edward Keasbey spoke on "New Jersey and Trusts." Prof. Bemis outlined his views, after which Prof. John B. Clark of Columbia spoke.

The evening was occupied by an address by William Dudley Foulke of Indiana, who was followed by Edward Rosewater of Nebraska.

VERY STRONG ENDORSEMENT

Janesville Lady Speaks Highly of Famous Bonsetter's Ability.

Hearing that Dr. Nancy B. Sherman of 154 South Jackson street, had been treated by the Bonsetter of America at the Grand Hotel a reporter interviewed her. Yes, she said, in answer to his query, I am more than pleased in what he has done for me and cannot say too much in his favor. About three months ago I fractured my right arm near the shoulder at Burr Springs and it has given me constant pain ever since. The fracture was reduced by a physician in this city, but it did not seem to get along and I had it reset as I supposed. Still it gave me trouble and I had several other physicians examine it without deriving any perceptible benefit. I became convinced that the only thing to do was to have it reset and had fully made up my mind to go to a Chicago hospital and have this operation performed, but hearing of the famous bonsetter and his work I called on him at the Grand Hotel last Thursday. He broke down the adhesions in a very few moments and reset the bones properly and without pain to me. He should feel as proud of his vocation as of the fact that he is a member of the American Medical Society. I had expected to be a cripple the balance of my life and cannot speak too highly of the Bonsetter and what he has saved me from.

Dr. Sherman is a resident of Kalamazoo, Mich., but expects to make this her home. She is a physician and understands the nature of her troubles thoroughly. This case should thoroughly convince every cripple in the city that in the Bonsetter there is hope and make it a point to call on him at the Grand Hotel, Thursday, Friday, or Saturday of next week, he will be in the city on those days. The ointments used by the Bonsetter in his work can be found at the leading drug stores or at the home office, Fond du Lac, Wis.

LONDON PEOPLE EXPECTING WAR

There Is No Let Up in the Tension.

INTENSELY EXCITING AT CAPE TOWN AND PRETORIA.

Late Dispatches From South Africa Are Uniformly Pessimistic of a Peaceful Outcome—Orange Free State Urges Transvaal to Refuse To Make Any Further Concession—Cruyer Decides to Reject England's Latest Demands.

London, Sept. 16.—[Special]—There is no let up in the tension caused by the acute Transvaal situation. Late dispatches from South Africa are uniformly pessimistic of a peaceful outcome. Everybody expects war. A dispatch from Pretoria says that Orange Free State urges Transvaal to refuse to make any further concessions. A number of officers and fusiliers left here this morning for Southampton to join a regiment which sailed for Natal. A vast crowd saw the regiment off. Dispatches from Capetown and Pretoria say the population at these places are intensely excited over the situation.

Young Boers Anxious to Fight. Capetown, Sept. 16.—[Special]—Dispatches from Pretoria say that Kruger and advisory council this morning decided to reject England's latest demands.

It is impossible to predict what the situation will be after the delivery of the reply in London. The young Boers are asking to be led into the field immediately.

Pretoria, South Africa, Sept. 16.—The climax in the Transvaal's relations with Great Britain is now close at hand and not one in a thousand of the Boers believes that war can be averted.

The Transvaal's reply to Mr. Chamberlain's dispatch will be an uncompromising refusal to concede British suzerainty over the south African republic. Decisive action is assured.

Preparations for stubborn resistance are proceeding incessantly. Every Afrikaner is making ready for the struggle. It is true that the government six months ago would scarcely have hinted at such constitutional changes and concessions to the uitlanders, as stand granted today, but the limit has been reached. Every man of fighting age in the best families in the land, all the members of the executive and the volksraad, along with seven sons and fifty grandsons of President Kruger, are ready to take the field in support of the government's ultimatum.

A solution of some sort will be a blessing to both Johannesburg and Pretoria, where business is all at a standstill. Indeed, throughout south Africa the case is the same—the crisis has brought scores of firms into a most shabby position.

Pretoria, Sept. 16.—The executive is still considering the final reply to Great Britain. All the commandants have been asked to send immediate returns of all the burghers available for military service.

Cape Town, Sept. 16.—The British high commissioner, Sir Alfred Milner, has issued a proclamation prescribing severe penalties for inciting the natives of Basutoland and other districts to rebellion.

May Present New Convention

London, Sept. 16.—The situation is now believed to be extremely critical and that war is inevitable unless Kruger recedes from his position. A report is current that a new convention will be presented to Kruger embodying the extreme demands of the outlanders. These new demands, it is stated, will be presented as soon as the garrison at Natal has been sufficiently strengthened.

Great Anxiety at Cape Town

Cape Town, Sept. 16.—The outlook respecting Anglo-Transvaal relations is considered here the gravest possible. It is reported on good authority that the instant the republic's reply to Mr. Chamberlain is dispatched 3,000 burghers will move at once to the frontier. The assertion causes no end of anxiety.

IS ACTIVE AT EIGHTY-FIVE

E. J. Smith Will Celebrate His Birthday Tomorrow.

The News in its issue of last evening says: He is as hale and hearty as men twenty years his junior and can mount the hill leading through the college campus with a step as light as a boy.

Mr. Smith has been a resident of Beloit forty-three years. When he came here he bought half the block where Emerson hall now stands and lived there many years, his old residence being moved when the hall was built. He now lives in a handsome house at the corner of College avenue and Emerson street. Barring an accident Mr. Smith will turn the century mark.

## VISIT TO EAST LONDON

SECTION  
FAMILIARLY  
KNOWN AS  
WHITECHAPEL.

THE  
ABIDING PLACE  
OF THE  
POORER CLASSES.

BY WILL. W. WATT.

London with its 11,000,000 population East End is a section of the city that is not often visited by the stranger, but in company with a detective from the central police station, I managed to spend from 2 o'clock in the afternoon until 2 o'clock in the morning. Here the poorer classes live more like animals than like human beings. London's poor in this section of the city number over five hundred thousand. The sights that greet you along the narrow, dirty streets make you think that life is not worth living under such circumstances. In the way there need be no fear of violence; but in the district where the slums thrive it is not safe for strangers unless escorted by the police. Just how many murders have been committed in this district is a question that can never be answered. Hidden away among the lines of brick and mortar are today evidences of crime that will never be brought to light unless this section of the city should be removed and rebuilt. One of the chief highways through the East End is that section known as Whitechapel road. A few years ago this section was thrown into a state of excitement by a series of revolting murders, in each case a woman being the victim. These murders are supposed to be the work of a me unhappy sufferer from insanity, and although he was never brought to justice, it is believed he found his proper place in an asylum. Through this wilderness of streets you see poverty in its worst form. Stores that are not worthy the name, are found occupying space no larger than a good sized dry goods box. Numerous eating houses or restaurants are here found catering to the poor at the rate of "three cents for a full meal." The bill of fare includes coffee, potatoes, bread and one kind of meat. All customers wait on themselves, but are obliged to pay before they eat. Shopping is largely done in the open air and foreign Jews are proprietors of many of the places of business. Pawn shops are numerous, and it is a common sight to see the people carrying their household furniture and crockery in order to gain needed money.

In the midst of this poverty section is located St. Jude's church, which is decorated with three religious paintings. When we entered this sacred edifice we were just in time to see a wedding party ascend to the altar, where they were joined in the holy bonds of matrimony. The bride and groom were both residents of Whitechapel and were accompanied by the interested relatives. There was no best man nor bridesmaid. Nor was there any music. The seemingly happy bride was rather handsome, and was about twenty years of age. She was attired in a brown calico dress, and on her head wore a cheap straw hat. The groom had the appearance of a hard working youth, probably earning as much as two dollars a week. The father of the bride kindly invited me to remain and witness the ceremony, which invitation I accepted with thanks. A minister, who looked as though he was not enjoying a large income, performed the ceremony, which lasted about ten minutes. The usual congratulations were then in order, and as but few people were present, I thought it my duty to congratulate the bride, which I did in a la American style. With hat on the smiling groom led his lady leave from the church, after imparting to the parson a fee that in American money would amount to twenty-five cents. Followed by a dozen relatives, the happy couple walked across the street into one of those "three-cent" restaurants, where the wedding repast was in order.

From this church the central station detective and myself walked down a resident street that was but seven feet wide. From this street we entered a humble home that consisted of two small rooms. The death angel had entered this home. The corpse was that of a ten-year-old girl, and in the center of one of these rooms it rested in a very plain coffin on which was placed a small

mission by what money they can get out of the audience by the sale of liquors. In this section of the city you meet more intoxicated men and women in one hour's time than you will see in all Paris in a year. Women drunkards are as numerous as the men and in the space of one block I counted no less than a half dozen women lying helpless in the middle of the street. Unless they resort to violence the police seldom disturb them for the reason that the police stations of East London would not be able to hold these women should the police arrest them. Women and men fighting on the streets is a common sight. But the good people of London have commenced to take an interest in this part of the city and have started relief work, which in a short time is sure to have a telling effect. The handsome churches of St. Mary's and St. Philip's have been erected in Whitechapel and both are endeavoring to elevate the people of the district.

Any bright afternoon you see different mission bands singing and preaching in the streets. The Good Templars have invaded this field and are doing good work, having in many instances established halls where regular bunch of wild flowers that had been the gift of a Whitechapel boot black. Services were being held as we entered, and although some two dozen relatives and friends sat about, not one seemed to shed a tear or show the least sign of sorrow. At the head of the coffin two little girls sat playfully drumming on the pine casket with their fingers. A colored preacher conducted services which lasted but a few minutes, and at the close the remains were placed in a poor excuse of a hearse, the relatives following to the cemetery afoot.

The poor in Whitechapel have their theatre to attend, and here for a penny they have two hours of vaudeville. The managers of these resorts claim that they make up for the small price of admissions by the sale of beer and other amusements, a library with spacious reading room; open air gardens and recreation grounds, a winter garden, billiard rooms, gymnasium, swimming baths, trade and science schools, and schools of bookery and needlework, all of which are free.

### EVANSVILLE MAN IN BASTILE

James Cleve Charged With Stealing Bicycles  
James Cleve of Evansville, is now tarrying in the Hotel de Appleby, awaiting examination on charges of the misappropriation of two bicycles. It is alleged that he stole a bicycle at the Cut off City, brought it to Janesville and sold to John McCullen, giving a bill of sale and assuring Mr. McCullen that the deal was an honorable one on his part. It is also alleged that the man from Evansville took a bike from the rear of the Hayes block and took it to his home city, where it was found in a repair shop. Cleve shook Evansville dust from off his feet, but later was located at Elroy and brought to this city to face the charges against him.

### FIRE OF AN UNKNOWN ORIGIN

Residence Occupied by Alexander Galbraith, Scorched.

This morning at 9:25 o'clock the fire department was called to the residence of Alexander Galbraith, No. 9 East street, south. The alarm was turned in from box 24, at the corner of Division and East Milwaukee streets. It was evident that the fire had been burning for some time, but the department, with its usual promptness, was soon at the scene, confining the flames to the rear part of the building, and soon had them under control. The fire originated in the summer kitchen or wood shed, which was damaged considerably, and the loss caused by smoke and water is quite heavy.

Night Watchman P. McGinley first discovered the flames, but to make sure that the vision was not an optical illusion, called upon the night clerk at Cop. McDonald's restaurant, who assured Mr. McGinley that it was the "real" thing and made haste to turn in an alarm.

Mrs. Edwin C. Bailey, who resides next door, was awakened and aroused her husband. The members of the Galbraith family were sound asleep at that time.

The origin of the fire is a mystery which Mr. Galbraith would like to solve. Those who saw the flames in their infancy, say that they were largely on the outside of the building, which is certainly a strange coincidence. He carried some insurance on his household goods. Miss S. Louise Hart, the owner of the property, also carried insurance.

### A FEATURE WILL BE SINGING

Active Preparations For the Coming Endeavors' Convention

One of the features of the coming State Christian Endeavor Convention held here October 19 to 22, will be the music. This will be in charge of Prof. J. S. Taylor. A large chorus choir of seventy-five voices, including the best singers of our city will render Gounod's "Sanctus," Mendelssohn's "O for the Wings of a Dove," and a number of other anthems. Aside from this there will be solos, quartettes, duets, etc., at all the sessions of the convention.

The Y. M. C. A. band will be present each evening. The chorus has already begun its rehearsals and meets each Friday evening at 7:30 at the Presbyterian church.

All the sessions of the convention will be open to the public and the addresses will be of intense interest to all.

The canvass for funds to defray the local expense of the meeting is progressing finely, all seeming to appreciate the distinction it is for our city to be honored with such a gathering.

### WILL BE A MODEL BASEMENT

Great Improvement Being Made At the Hayes Block.

Work has been commenced on the basement of the Hayes block, and when it is remodeled it will be the finest place of the kind in the city, and will be fully in keeping with the rest of the building. Workmen are now engaged in excavating for the improvement and are throwing out the accumulated dirt of years.

The basement as planned will be nearly as light as the rooms above, as prism lights will be set in the sidewalk on both Main and Milwaukee streets, and will convey the rays to the room below. The floor will be composed of white tiling which will insure neatness at all times as it can be easily cleaned. The entrance will be on the Milwaukee street side. The basement will be particularly adapted for use as a barber shop, and will no doubt be rented for that purpose.

### TO BE WEDDED ON MONDAY

Wilbur-Schmidley Nuptials to Be Celebrated at St. Mary's Church

A. J. Wilbur and Miss Mary Schmidley will be married at St. Mary's church at 8:30 o'clock Monday morning, by the Rev. Father Goebl, and after a brief wedding trip they will take up their residence at 406 Eureka street, Ripon, Wis., at which city Mr. Wilbur holds the position of agent for the C. & N. W. railway company.

### Philadelphia Suits.

Monday, the 18th, the agent of a large Philadelphia suit and cloak manufacturer will be at our store with a large line of garments. Special orders taken. J. M. Bostwick & Sons.

We do not give away premiums, we do not sell goods on credit, but we do sell groceries at the lowest prices in Janesville and a trial will prove it. De-drick Bros., spot cash groceries.

### LESS ACTIVITY IN BUYING NEW CROP

MOVEMENT LOSING ITS HURRY AND EXCITEMENT.

Sampling of the '98 Tobacco is Well Started, and Some Trading in Old Leaf is Reported.—Harvest is Fast Reaching an End—There Have Been Slight Frosts.

Buying of the new tobacco crop is proceeding in several of the growing sections of the state but the movement is losing much of the hurry and excitement of the previous trailing in the fields. Very few dealers, outside of those who were in at the opening have thus far been attracted into the deal. Quite a little tobacco has been purchased during the week in and about the Rio and Orfordville sections and in some localities pretty well cleaned up. It is reported that local dealers in Vernon and Crawford counties are following the smoke of the earlier battle and have bought quite generally all along the line. A conservative estimate of the buying to date by the two leading Edgerton firms would place from 800 to 1,000 acres for the Hoffman-Culston firm and possibly as much more by Sutter Bros. It is questionable whether the liberal sales so far made will induce a general movement of the crop at present.

The Edgerton Reports quotes the following sales, which indicate the range of prices:

### build the house around the bath room.

SOME PEOPLE say, "The modern idea in building is to have the bath room and plumbing convenient and nice, if you are obliged to cut off on something else."

That Double System of Plumbing..... we are putting in many houses, is a convenience well worth looking into. It can be placed in any house. With it you have soft water for the bath and lavatory purposes and with the turning of a valve you can run city water through the pipes. A motor elevates the soft water automatically. We would be pleased to explain it more fully to you.

WE KEEP THE QUALITY UP

### FUR COLLARETTES

We are showing a large line.

Bought ours early and paid small prices. Our garments are well made—reliable.

Furs will be much worn this fall and winter.

Early purchasing of furs means carefully selected skins.

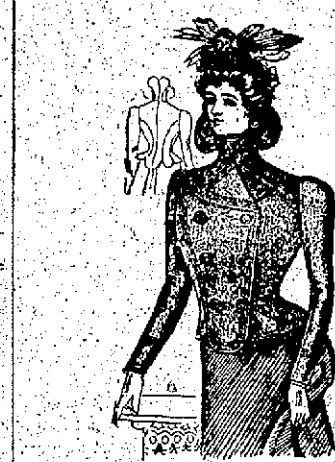

Our stock is in excellent condition. We have a large assortment of fine fur garments and can save you money. Everything is advancing in price, but forehanded buying will save our customers many dollars and we can give them reliable furs at the same time.

### Astrachan Jackets.

Many fur jackets will be worn and already women are selecting them. We have jackets in stock that have advanced 3 to 4 dollars since we bought them. We offer a 24-inch jacket, box front, extra high collar, excellent lining—a thoroughly good Astrachan Jacket—at \$29.00.

### Fur Capes.

We make a specialty of fur capes. Our present assortment comprises a beautiful lot of them. Long, sensible capes, 27, 30 and 33-inch lengths, with sweeps of 110 and 115 inches in wool seal with opossum or marten collars. Monkey capes Electric seal with marten collar and edge. Astrachan Beaver and Novelties.

### Cloth Jackets.

A very complete line at figures that are small. Several numbers have advanced from 50c to \$2 since we bought ours. We will not attempt to go into details; this "ad." is more to let you know that we are ready for any demand.

### Cloth Capes, Plush Capes.

We are not caught napping. All kinds of outer garments are higher, because cloths have advanced and the great demand for garments gives employment to all the garment-workers in the large manufacturing centers and the scarcity of skilled labor sends up wages, as the experts can command a marked increase over summer prices. We placed our orders in May and June. Capes of plush or cloth will be very good and we show all the new things.

**GOLF CAPES**—By far the most attractive styles here. We make them to order also from beautiful Steamer Rugs. Like qualities in ready-made capes cost from \$5 to \$10 more than we get them up for. McCall Bazar Patterns are well liked. All 10c and 15c, none higher.

Sampling of the '98 is well started and some trading in old leaf is reported. The Reporter also says "the most important transaction is the purchase of 8000s of '97 by H. W. Child of Samuel Grundy. Mr. Brenner of Philadelphia, bought a few hundred cases of local dealers during the week. Conway Bros. sold 1000s of '98 and L. B. Carle received 450s of '98 from John Peach of Porter here on Monday."

The harvest of the new crop is fast reaching an end. A few straggling lots are still standing but the cool nights will have a tendency to hasten them in. Slight frosts occurred in Vernon county early in the week, also hail. The weather has been fairly good for curing.

The shipments out of storage have reached a total of 7000s for the week from Edgerton to all points. Since last report 812 cases of cigar leaf were exported from New York.

## German Catholics to Convene.

St. Paul, Minn., Sept. 16.—Fifty thousand members of German Catholic societies in the United States will be represented by 500 delegates at the convention of the German Catholic Central and Young Men's German Catholic societies, which opens in St. Paul tomorrow morning. This year's convention is one of importance and many matters of weight will be considered. The Catholic school question, the temporal possessions of the pope and the consolidation of all the German Catholic benevolent societies of the country are to be discussed. It is expected also that resolutions pertaining to the so-called German interference in the Spanish-American war may be introduced during the session.

Most people appreciate a good thing at a fair price, but some few will have only the things that cost the most money. The "Ivory" is the favorite soap of most people. Some few want the high-priced toilet soaps and think they must be better because they cost more. No soap is more carefully made, or is made of better materials, than Ivory Soap.

IVORY SOAP IS 99 4/100 PER CENT. PURE.

## CITY SHOULD BUY "KING LOT."

The city of Janesville should buy the lot at the corner of East Milwaukee and Bluff streets as a site for a city hall.

The lot can be bought cheaper today than it can be bought one year from now.

The city of Janesville must have a city hall within the next few years—some people say it ought to have it now.

The site is the best one in town for the purpose, and the price is reasonable.

There should be no sectional feeling in this city, and the improvements made from time to time should be made with a view of causing the city to expand and grow.

The East side should help the West side and vice versa. East side people made no complaint when the new High school was erected on the West side.

East side people subscribed liberally to the fund to build the Y. M. C. A. building, although it was located on the West side.

East side people were pleased to see the new C. & N. W. depot built, even if it was erected on the West side.

West side people are happy to see the new jail built, and do not complain because it is on the East side.

They are glad to see the Hayes block remodelled, and take pride in the other hand, some buildings recently put up.

The postoffice is to be built on the West side, and East side people should say "amen."

The new city hall that will soon be required, should be built on the East side, and to this proposition, West side should say "amen."

The common council should buy "the King property" for that purpose at once. Real estate is growing, more valuable every day.

The King lot is an excellent location for a city building, and should be bought before natural conditions add a thousand or two more to the price.

We should all pull together for the good of Janesville regardless of the fact that Rock river runs through the city and there is no better time than the present, to show that spirit.

And no better opportunity will be offered than in the purchase of this property mentioned for a city hall site.

An Edgerton man protests because a Janesville friend failed to keep an appointment to pilot the Edgerton man to a ball game.

We had supposed that Edgerton men could find a base ball game in the dark, but Janesville is a big city nowadays, so perhaps the suburbanites are embarrassed by the busy whirl of commerce, and really need some one to look after them.

The "calamity howlers" are now confining their attention to the management of the war, but they know no more about this than they did about bringing prosperity, so their talk goes for naught.

The city of Janesville should be made to expand and grow. The way to accomplish this is to pull together and let no petty jealousy endanger the welfare of the town.

Hon. Isaac Stephenson, in an interview, denies that he is planning a campaign for revenge, and says that he is not a candidate for any office.

The United States navy now consists of 312 vessels, and every one of them is worth "its weight in wildcats" when it comes to a scrimmage.

The Philippine commission has been recalled, and fire arms will replace fine words in dealing with the natives.

The automobile race did not come off at the State Fair. Automobiles seem to be exceedingly unreliable.

## LAST OPEN AIR CONCERT

Another Treat By the Imperial Band

LAST EVENING

Janesville music lovers regret the fact that the concert given by the Imperial band at the court house park last evening is the last of the season. Notwithstanding the fact that the atmosphere was quite chilly the park was well filled with people who listened with appreciation to the sweet discourse of music. During the season just closed the concerts have furnished a source of great pleasure to the citizens of the city and it is to be hoped that next season they will be taken up again.

## Killed Her Babies and Herself.

Scottia, Neb., Sept. 16.—As a result of domestic difficulty, Mrs. Earna Phillips forced her two children, aged 1 and 2 years, to take carbolic acid and then swallowed a dose of the poison herself. The husband found all three lying upon the floor dead when he returned from the field, where he had been at work.

## END OF A PLEASANT VETERANS' REUNION

Continued From page 5.

and wholly a martyr might lay down his life in order to point the way, but the spirit of the man could not be killed. His soul would go marching on, and with its fire, impregnate the souls of generations to come. That fire was not quenched at Appomattox. It still burns. It has entered the souls of another generation. Your sons have taken up the fight, as their fathers laid it down, and they stand as ready as you in '61 to make any sacrifice for the institutions you so nobly saved. And this is perhaps the grandest result of all your work, that your unselfishness, your nobility of purpose, your patriotism should have so stamped themselves on the American character that for generations to come, to fail in the qualities will mark a man as an alien and a traitor.

Forty years have passed since, laying down the sword and musket, you took up the implements of a peaceful life, and thus proved to the world, that an American can be a good soldier and a good citizen. Time has thinned your ranks. But during all the years the glory of your work has increased, and its significance has been better understood, till now you can rest assured that for all time to come, when children are gathered at the mother's knee to listen to tales of heroism, or when men would stir each other to deeds of bravery and patriotism, then will your names be invoked, and their will be told again, and again of the brave men of the Grand Army.

After the applause following the mayor's remarks had subsided, General E. B. Bryant of Madison, responded on behalf of the regiment. He said that the veterans appreciated the efforts of the citizens to entertain them and that they were deeply thankful. He said that the regiment could not have chosen a more appropriate place to meet than in Rock county as it was the acknowledged home of loyalty at the time of the war. He then paid a glowing tribute to the newly elected president, Col. E. O. Kimberley, of this city, and expressed in well chosen words the esteem in which he is held by his comrades.

Col. Kimberley was next on the program and sang two numbers, "The Boys Who Marched With Sherman and With Lee," and "Hamilton's Badger Boys," which were enthusiastically received. His accompaniments were played in a faultless manner by Miss Grace Bryant of Washington, D. C., and she proved herself a talented musician.

Mrs. Janet B. Day then pleaded the veterans, with a recitation, entitled "A Soldier's Letter" and received an encore but did not respond.

The address of the evening was read by Rev. E. H. Pence, pastor of the Presbyterian church and was the principal feature of the exercises. Rev. Pence was at his very best last evening and spoke in his usual masterly manner. He took for his subject the battle of Antietam, which was participated in by the Third regiment and gave his hearers a vivid description of both the preliminaries to the fight and the battle itself. He closed with a fitting tribute to the regiment, which was surely merited.

Col. Kimberley was again called upon and sang two more appropriate war songs after which Mrs. Day read, an other pleasing selection. The program then closed with the singing of "America" by the entire audience.

The most of the veterans departed for their homes today and all left the pleasant gathering reluctantly, as many of them may never meet their comrades again. The executive committee are especially thankful to the local merchants who responded to the request for them to decorate their places of business and also desire to thank the citizens in general for their extension of hospitality during the reunion.

## END OF A PLEASANT VETERANS' REUNION

CLOSED LAST NIGHT WITH EXERCISES AT COURT HOUSE.

Mayor Richardson the First Speaker—General E. E. Bryant of Madison, Responded—Address of Evening by Rev. Pence—Accompaniments Played by Miss Bryant of Washington.

The ninth annual reunion of the Third Wisconsin Veteran Infantry association closed last night with interesting exercises at the court house, which were participated in by every attending member of the regiment, the W. H. Sargent Post, G. A. R., and the Women's Relief Corps. The meeting has been one of the most successful ever held, and speaks well for the enterprise of the executive committee who were untiring in their efforts to break all previous efforts. This committee was composed of Col. E. O. Kimberley, B. M. Bucklin and T. J. Dann.

The Y. M. C. A. band was on hand last night and opened the exercises with several well rendered selections. One of them was a melody of national airs, and when the strains of that grand old tune, "Marching Through Georgia," sounded in the hall, the W. H. Sargent Post

E. O. KIMBERLEY.

marched into the room, with their former martial tread, the audience was brought to its feet and sent up a cheer that was heard for blocks.

Capt. T. C. Slagg, until yesterday president of the association, introduced Mayor Richardson as the first speaker, and his honor addressed the gathering in the following words:

Mr. Chairman, Ladies and Gentlemen: As a member of a generation that took no part in the war of the rebellion, I feel somewhat diffident about speaking here this evening. We who had no share in that conflict should remain silent in the presence of you who bore its burdens. We know of the war only as a matter of history, as we know of the deeds of all brave men, who through the centuries past have fought for country and for right, while you who have made its campaigns, who fought its battles, know by personal experience of its wearisome marches, its long sieges, its fierce fights and its bloody deaths.

The speaker should be silent in the presence of the man of action. But while we cannot point to such a history as yours, we may be allowed, and it is a pleasure for us to voice our appreciation of the work done by yourselves. I feel that it is an honor for me to be allowed to stand here, and on behalf of the men of my generation, acknowledge to our sires the debt we owe them.

As stories are always in order around the camp fire, I may be pardoned in telling you of the one recollection which I have of the war. Especially as I believe that the incident has more than anything else enabled me to arrive at a true appreciation of the real spirit of the war, and the spirit of the American people.

In March, 1865, the Confederacy was tottering to its fall; the war was near its end, and the weary watchers in thousands of northern homes were waiting almost breathless for the news of the final surrender. On the evening of April 2nd the fall of Richmond was hourly expected and a party of gentlemen were gathered together in this city waiting for the news of the surrender, but as the hours passed and no news came, many of them, my father among them, retired to their homes, believing that they still had another day to wait. But a few hours later, we at home were awakened from our sleep by the tramping of men marching in the street and the sound of many voices singing that grandest of all our battle hymns, "John Brown's Body." I can never forget the excitement of that moment, and although a mere child I seemed to realize the stupendous importance of the event. I remember father rushing to the door, and asking for the news, and with a mighty shout the crowd replied "Richmond has surrendered." Mother was on her knees weeping and praying. The crowd called for father to join them, and father rushing around the house so excited that he could not find his clothes. At last with mother's assistance he was dressed, and started off with the others to celebrate, and as they left the house, they again took up the march and John Brown was still the burden of the song and as the sounds died away in the distance, the last we heard was that exultant, that triumphal cry that "his soul goes marching on." Ever since that night the words of the song have thrilled me, as nothing else can, and as I have grown to believe that there is nothing in our literature, either prose or poetical that so surely strikes the key-note of the American character. John Brown might die, the poor man half fanatic,

A FRENCH TEA CAKE (to eat hot).—This is an English idea of a French tea cake in point of fact. It was made over 100 years ago. Beat six eggs and add a pint of cream and as much sifted flour as it will take up to make a thick batter. Then add six ounces of melted butter, two gills of white wine and half a nutmeg grated. Mix well, and let stand three hours in a warm place. Bake in a quick oven, and as soon as taken out split in two and spread with pomade made of fresh butter kneaded with pounded sugar and rosewater. Unite the pieces and serve hot.

FRICASSEE OF CHICKEN.—Cream of potato, artichoke, rice or tomato can be served with cold or light cold meats, or a quick soup can be made from a fluid beef extract with a little made as follows: Two cups of water to six good sized tomatoes; also a slice of onion, a piece of bay leaf and a sprig of parsley. Simmer 20 minutes and add one half cup of cold water, salt, pepper, and a dash of vinegar. Cook five minutes. Then stir in one tablespoonful of good butter and serve with thin slice of dry toast.

## A BUSINESS MEN'S LEAGUE AGITATED

MERCHANTS FAVORABLY CONSIDERING ITS FORMATION.

Such a Move Would be a Step in the Right Direction—A Systematic Effort Must Be Made in Securing New Enterprises—No East or West Side.

Several local merchants are agitating the formation of a business men's league in the city, and that it is a step in the right direction cannot be doubted. From time to time opportunities present themselves, which if taken advantage of, could not help but lead to the betterment of the city, but until the business men act in harmony, nothing can be done along this line.

This is of special reference to the half hearted way in which propositions from outside manufacturers to locate here are considered by the local merchants, and a systematic effort should be made by them to bring to this city concerns which are anxious to come, providing that proper inducements are offered. Janesville has had such organizations in the past, and they were all right on the start, but interest in them was soon allowed to lag and died out. There should be no east or west side when the matter of a public improvement comes up, but every citizen should consider the best interests of the city and act accordingly, and an "all for one, and one for all" feeling should prevail.

Every merchant in the city should willingly join an organization of this kind, as it cannot help but bear good results.

Within the last few days representatives of a proposed concern for the manufacture of a money changing machine have been in the city trying to get a fair proposition from the business men to locate here, but have now gone elsewhere as the local people would not offer inducements enough. Their machine has never been manufactured, but the use of it will no doubt become as general as the cash register, and if it was to be made here Janesville might become famous by it. It is a time and labor saver, and is absolutely accurate. The model was shown to a number of business men and all pronounce it a wonder. It makes change for one dollar and fractional parts and is so positive in its action that the exact amount is delivered the moment the key is pressed.

Some lucky city will get the factory as the well known Oliver Type-Writer company are the backers of it. When it is located elsewhere and is sending its product all over the world and giving employment to hundreds of men, then Janesville will wake up as it did many years ago after it had passed up the Elgin watch factory and the citizens will say, "If we only had it here." The thing to be most earnestly desired is unanimity of action among the business men, and when it is brought about Janesville will get some more good factories and the steady growth of the city will be promoted. Several of the leading men here have been interviewed on the subject of a business men's league, and all are in favor of it. Now let them get together and take united action.

## EDGERTON ROBBERS SHARE SPOILS HERE

IN JANESVILLE LONGER THAN WAS SUPPOSED.

Youth in Second Ward Finds Iron Box Which Had Been Removed From Safe by Burglars—Found Near Where the Stolen Rig Was Left Yesterday Morning.

The men who committed the safe robbery at Edgerton Thursday night, evidently staid in Janesville longer than was supposed, when they fled to this city after the crime, for evidence has been discovered which shows that they divided their spoils up on Hickory street.

A son of Frank Hayes, who lives in the old Kinney house in the Second ward, was playing with another boy on Hickory street this morning, when they found the iron box which had contained the stolen money, and which had been removed from the safe by the burglars. The box was lying at the side of the road about eighty feet from the spot where the stolen rig was found. It contained a number of papers and insurance policies, which were of no value to the thieves, but it is needless to say, however, that no money remained. Chief Hogan was at once notified of the find and took possession of the box and sent it back to Mr. Hartzein by R. J. Maltress of Edgerton, who was in the city this morning.

## FORMER BELOIT BOY SUICIDES

Charles E. Smedes Takes His Own Life On a Passenger Train.

Charles E. Smedes, a former resident of Beloit, and a cousin of George B. Sherwood of Sherwood avenue, took his own life Wednesday while on his way from his home, Harlem, N. D., to Chicago. The News in speaking of the rash act, among other things, says: "He had been ill for some time and was going to Chicago for treatment, being accompanied by his brother, Albert Smedes, with whom he had been associated in business. As the train was passing through Glenville, Ill., Charles drew a revolver from his pocket and before his brother could interfere had put a bullet through his right temple."

Mr. Smedes lived with his cousin, Mr. Sherwood, for about twelve years, spending most of his early youth in Beloit. He left after his freshman year in college, about 1889. His two brothers graduated from Beloit, Albert being in the class of '80 and Thomas L. Smedes in the class of '74. Charles B. Smedes was thirty-six years of age.

FLIGHT OF HOMING PIGEONS Green Bay Birds to be Liberated at Beloit Sunday Morning.

According to the Beloit News between fifty and one hundred homing pigeons from Green Bay will be sent to Agent Riley of the express companies for liberation Sunday morning at 7 o'clock. These pigeons are owned by Jules G. Jansen of the Green Bay district of the National Federation of American Homing Pigeon Fanciers.

The flight will be of unusual importance as it is against birds in all the United States for national honors and diplomas. The pigeons will rise from the field just east of the Eclipse plant, from where they were liberated last year. Many people will no doubt be glad to see the swift birds start for Green Bay. If it is cloudy or a strong northerly wind blows the flight will be postponed until the weather is more favorable.

### THE SEARCH STOPS.

#### The Right Thing Has Been Found. A Janesville Citizen Shows the Way.

Once more we are indebted to a Janesville citizen for a public statement that throws more light on a subject of ever-increasing interest. People have been deceived by false misrepresentations from time immemorial. No wonder they are skeptical of all claims endorsed by strangers, residing in far distant parts of the Union. It is no longer necessary to accept such endorsements, for local citizens are giving their testimony and 'tis an easy matter for any reader to investigate the correctness of such evidence as the following:

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says:—"My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longed for and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the aching and the distress in the small of her back disappeared."

Doan's Kidney Pills for sale by all dealers. Price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no substitute.

### TARTAR SAILS FOR HONGKONG.

#### Transport Is Examined and Clearance at Once Granted.

Hongkong, Sept. 16.—In compliance with the request of United States Consul-Gen. Wildman an official survey of the transport Tartar, conveying American volunteers from Manila to New York, was made Friday. The result of the examination sustained the contention of the United States war department that the limit of 750 passenger was assigned when half the space in the vessel was occupied by cargo, and that without cargo the quota of troops assigned to the Tartar by the department might be accommodated without overcrowding. An abundance of life-saving appliances also was found on the ship.

Permission to clear was immediately granted, and the Tartar at once sailed from Hongkong, leaving twenty soldiers behind.

Washington, Sept. 16.—Secretary Root will make a thorough investigation of the causes which led to the detention of the Tartar at Hongkong. It is alleged that American friends of the Filipino junta were the cause of the trouble. Col. Metcalf was instructed to have a complete report ready for transmission upon his arrival at San Francisco.

#### Window Glass Trust Formed.

Pittsburg, Pa., Sept. 16.—The members of the window glass selling agency known as the American Glass company, controlling 2,000 out of the 2,600 window glass pots in the United States, met here Friday. James A. Chambers, president of the company, made the following statement: "We succeeded in forming the American Window Glass company, with a capital of \$17,000,000, the preferred stock being \$4,000,000.7 per cent cumulative." The trust is not yet ready to begin work, and has not settled the wage question with the workmen. Mr. Chambers asserts that the trust by agreement controls 500 out of 600 pots, and that not more than 150 will start up until he gives the word.

#### Bragg's Veterans Pleased.

Racine, Wis., Sept. 16.—The nineteenth reunion of the Iron Brigade association came to a close at noon Friday and nearly all the members who were present have left for their homes. They were unanimous in claiming that the reception given them by the citizens of Racine was the most cordial that had yet been tendered them by any city at which the reunion had been held. Gen. Edward S. Bragg, Fond du Lac, was chosen president for the ensuing year. The next reunion of the brigade will be held in Chicago in 1900, a day or two previous to the national encampment of the G. A. R.

#### Command to Be Only Nominal.

Washington, Sept. 16.—It is reported at the war department that Gen. Otis' command in the coming campaign in the Philippines will be only nominal. He has outlined a campaign with the advice and approval of the war department officials and the president, but Gens. Lawton and MacArthur will be entrusted with carrying it into execution with little interference from Gen. Otis. They will be told what is expected of them and be permitted to execute their orders in their own way, being held responsible only for the results obtained.

#### Gen. Flagler Very Ill.

Niagara Falls, N. Y., Sept. 16.—Gen. Benjamin Flagler is hopelessly ill at the International hotel with Bright's disease. Gen. Flagler was chief of Black, under Govs. Morton and Black, and in 1892-93 he was grand master of Masons of the state of New York. He is 66 years old, and was a captain in the civil war, having been a member of company E, Twenty-eighth New York regiment, the first organized in Niagara county.

#### To Act in Carter Case.

## One Girl Who Was Saved

Miss Frankie Hathaway, of Sixteenth Street, Holland, Mich., says:

"I am twenty-one years old, at sixteen I was pale and weak. By the time I was nineteen years old I was so weak I could not walk across the floor. I was terribly emaciated and my skin had lost all color. The doctor pronounced the disease anemia. Being advised to try Dr. Williams' Pink Pills for Pale People, I bought a box, and before I had taken all of the pills found that they were doing me good. Appetite increased and the healthy color began to show in my cheeks and lips. I continued to use the pills until I found myself permanently cured. Since then I have had no return of my old trouble. I know that Dr. Williams' Pink Pills for Pale People saved my life and I believe that no other medicine could have done it."—From *Ottawa Times, Holland, Mich.*

## Shapely Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is very destructive to the mother's shapeliness. This can be avoided, however, by the use of MOTHER'S FRIEND before baby comes, as this scientific liniment prepares the body for the strain upon it, and preserves the symmetry of form. MOTHER'S FRIEND also obviates all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing, and thousands gratefully tell of the great good it has done them. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this great remedy, will be sent free to any address by THE BRADFIELD REGULATOR COMPANY, Atlanta, Georgia.

## WEEKLY REVIEW OF TRADE

Business During August Has Established a Record.

LARGER THAN EVER BEFORE

Fall Trade Activity Now at the Maximum—Heavy Sales of Wool Based on Expected Advance in Prices at London—The Week's Failures.

New York, Sept. 16.—Bradstreet's says:

"With comparatively little stock on other speculative activity, and with few strongly new features presenting themselves, the general business of the country goes forward at a good pace and in unprecedented volume for this period of the year. Fall trade activity would appear to be at its maximum, judging from advices of activity and strength of demand reported alike from western and eastern markets, and shared in also by most south Atlantic and interior southern cities. Wheat (including flour) shipments for the week aggregate 4,000,000 bushels against 4,353,906 bushels last week. Corn exports for the week aggregate 5,000,000 bushels, against 4,786,873 bushels last week."

R. G. Dunn & Co.'s weekly review of trade says:

"Better than all other news is the record of August commerce, which shows the relation of United States business to that of other countries. Exports were \$20,982,875 larger than ever before in August, and exceeded imports by \$37,929,699, partly because exports of staples were \$9,366,978 larger than last year, but also because exports of other products, mainly manufacturing, were \$10,349,000 larger than last year and larger than any other month of any year. The heavy sales of wool—12,056,900 pounds for the week and 21,282,100 pounds for two weeks, against 36,629,400 pounds in 1898—are largely due to heavy manufacturing purchases at Boston, but there, as elsewhere, the buying is mostly based on expectation that London sales beginning next Tuesday will show an important advance. Prices here are stiff, and the demand for woolen goods of all sorts is strong. Failures for the week have been 149 in the United States, against 174 last year, and thirty-two in Canada, against twenty-three last year."

### Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The child can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c.

## Great Bargains In Fine Shoes

that we are now giving the people of Janesville and vicinity. The more often you see them, the greater good you receive, for to see them is to buy, and to buy is to get far better Shoes, in style and quality, for much less money than you ever did before.

## The Only Reason We Can Sell So Cheap

is because we bought the entire stock of the largest Shoe store in Marinette, Wis., at a very low price.

## The Only Reason We Do Sell So Cheap

is because we are obliged to. Long before we had the chance to buy this big stock we ordered heavy fall shipments, and they are all coming in on us now. We have not shelf room for them all, so give the people advantage of the big deal we made and let everyone do good to himself according to his purchase from this stock.

THE REASON WHY YOU SHOULD BUY AT ONCE is because when the Marinette stock is gone, this "Bargain Sale" is over. So hurry up and join the rush REMEMBER, it costs you nothing to look, and but little more to buy.

Ideal Milk Stands All Tests New Harness...

The point brought up at a "Council" meeting some little time since, regarding the inspection of city milk, would, if enforced, find Ideal Aerated Jersey Milk ready for any test. It is cooled and bottled in the most approved manner, bottles are scalded and thoroughly rinsed and each bottle fitted with clean, new, wood pulp corks. It will keep well and is perfectly pure. When cream forms on milk and becomes stringy it is impure. Ideal Milk forms perfect cream.
